EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joy S Goudie on 11/28/05.

The application has been amended as follows:

In claim 10 , (in the first full paragraph on page 4 of applicant's 11/4/05 amendment), the phrase “ S₁ and S₂ are independently selected from the group consisting of hydrogen, alkyl, alkenyl, alkynyl, aralkyl, substituted or unsubstituted aryl, or S₁ and S₂ together with the nitrogen to which they are attached form a nitrogen containing heteroaryl” has been deleted and replaced by the phrase: -- wherein S₁ and S₂ are defined in claim 1 --.

102 Rejections Withdrawn

The various detailed rejections of claims 1-6 and 10-18 under 35 USC 102(b) and 102(e), outlined in the previous Office Action, have been overcome by applicant's amendment. With respect to claims 2, 3 and 11, the amendment cancels the claims. With respect to the remaining claims, the amendment narrows the independent claim(s) such that the set of compounds taught no longer reads on the cited prior art.

Claim Objections Withdrawn

The objection to claims 7-9, outlined in the previous Office Action, has been overcome by applicant's amendment. The amendment cancels the claims.

Allowable Subject Matter

Claims 1, 4-6, 10 and 12-18 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art remains the prior art of record. Applicant has narrowed the claims such that the instant compounds no longer read on this cited art. That is, the cited prior art neither teaches nor suggests the instant compounds or processes. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the compounds of the prior art in order to arrive at those of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
